

MineScape 2021 Update 9

The following section lists the new functionality, features and defect corrections delivered with MineScape 2021 Update 9.

New Licensing System with Reprise

MineScape 2021 Update 9 has transitioned the Licensing System from Flexera to Reprise. With this update, MineScape license can now be securely managed by Datamine in the Cloud, enabling convenient access to MineScape from anywhere without a VPN. For users who prefer a local license server, retrieving licenses and updates directly from their server is now possible without the hassle of copying files.
